Tradable Prices From Perimeter's CBID Marketplace

3,000+ FI Securities:
Government & Agency Bonds, Provincial & Municipal Bonds, Corporate Bonds and Money Market Instruments

Live Data: Real-time prices and yields from CBID

Historical, Intra-Day and End-of-Day services available

As a leading provider of electronic fixed income trading in Canada, Perimeter operates **CBID**, Canada's only live multi-dealer electronic fixed income marketplace that services both retail and institutional clients. Many leading CAD fixed income dealers supply best price order books to **CBID**, which consolidates them into two sided markets with depth of book. With a diverse inventory, price transparency, and immediate execution, **CBID** is able to remove transaction uncertainty and simplify the trading process.

The **CBID Market Data Service** on Thomson Reuters provides subscribers complete coverage of the Canadian fixed income market in real-time. Drawing on **CBID's** aggregated pool of fixed income liquidity, this package offers unique insight into the breadth and depth of activity across the entire Canadian fixed income market. Live executable prices and yields are available for over 3,000 instruments. Issuer coverage spans all levels of government, government agencies and corporations.
